

## Company Fact Sheet

### Company Description:

A-TEN-C, Inc. is an industrial by-product /co-product, marketing, and consulting company involved in the recycling of a wide variety of materials from mineral waste to metals.

Our company specializes in diverting certain inorganic products used in the manufacturing of ceramics, refractories, steel, and aluminum into viable quality products for re-use by industry, thereby eliminating the need for costly land disposal.

### Mission Statement:

A-TEN-C, Inc. is committed to defining and implementing cost effective and environmentally sound strategies to recycle industrial by-products and co-products.

### Our Products:

Our managements' thirty-five (35) years of experience has been focused in recycling a large variety of materials including, but not limited to:

- Abrasives
- Carbon
- Ceramics
- Refractory Materials
- Mineral Processing Wastes
- Steel & Aluminum Production Wastes

The following is a partial list of some of the specialized service projects that we are currently managing:

- Refractory Recycling, Alumina, MgO, Castables, Super Duty Brick & Slide Gates
- Recycling of Mill Scale, Aluminum Scrap & Mineral Wastes
- Recycling Spent Alumina Desiccant, Ceramics, Dust & Powder
- Resale and Packaging of Steel Shot
